1. A large iron foundry is being constructed in the Miljanovici - Doboij - Teseanj area. This enterprise will be much larger than that at Zenica. It will have 22 Siemens-Martin furnaces and underground installations. A part of these installations is also being constructed in a wooded region and is difficult to see from the area.
2. A similar industrial center which is no less important is being constructed at Sarajevsko Pola (sic).
